

# Colourful

Virginia To Vegas

Something new that you've started inside of me  
You light me up, I feel the fire burning  
You take control, you want to get away  
Somewhere private, just you and me  
In my t-shirt, she's a beauty queen  
Don't need no makeup, she's my everything  
Tonight she asks what she thinks of me  
I lay back, honestly

Your blue eyes look at me  
Your blonde hair covers me  
Your red lips are making life  
So colourful, so beautiful

My whole world was black and white  
I can't wait to do it right  
Your blue eyes making life  
So colourful, so beautiful

Something real that I can't bear to loose  
You're my diamond, I finally found you  
I was searching all of my life  
Then I stumbled in the rough and you were mine  
(Hey) Now, making me feel like I'm in clouds  
Never knew love was this loud  
Dancing all night to the bass drum  
Singing at the top of my lungs

Your blue eyes look at me  
Your blonde hair covers me  
Your red lips are making life  
So colourful, so beautiful

My whole world was black and white  
I can't wait to do it right  
Your blue eyes making life  
So colourful, so beautiful

(So colourful, so beautiful)

Your blue eyes look at me  
Your blonde hair covers me  
Your red lips are making life  
So colourful, so beautiful

My whole world was black and white  
I can't wait to do it right  
Your blue eyes making life  
So colourful, so beautiful

So colourful, so beautiful

Your blue eyes making life  
So colourful, so beautiful
