

# Don't Fight the Music

Virginia To Vegas

I know its hard  
We fell apart  
Like passing stars  
But you still got my heart  
Had me from the start

Said we won't last  
They don't know us  
When it's love  
It goes by so fast,  
So we don't look back

Baby tonight's the night,  
I will let you see, show you all of me  
Maybe tonight's the night  
You will let me see, show me everything

Damn  
Baby don't fight the music  
Baby don't fight the music  
I just want you, damn  
Baby don't fight the music  
If we don't fight we'll lose it  
I just want you, damn

Girl I just wanna hold you [6x]

Your in my arms  
Look in your eyes  
Says hold me tight  
Never let this go, take it nice and slow

The moments ours  
Colliding stars  
Like fireworks  
When you're next to me

I just want you, damn  
Baby don't fight the music  
Baby don't fight the music  
I just want you, damn  
Baby don't fight the music  
If we don't fight we'll lose it  
I just want you, damn
