

heaven tonight

Virginia To Vegas

Let's board up the windows
Board up our doors
Let's light all the candles
Wait for the storm

No. I've never loved you more than right here in this moment
They're sending out a warning
There might not be a morning

The world's gone to hell
Feels like everyone's losing their minds
But I don't care
'Cause as long as I'm holding you tight
Well, I'm alright
Baby, kiss me one last time
If the world's gone to hell
Baby, we'll go to heaven tonight

Baby, we'll go to heaven tonight
Baby, we'll go to heaven

Let's grab a bottle
Kill the lights and love me like there's no tomorrow
If all we got is time that's borrowed
Pull you close
Watch that sky fall down
Swear I won't let go
All I know right now

The world's gone to hell
Feels like everyone's losing their minds
But I don't care
'Cause as long as I'm holding you tight
Well, I'm alright
Baby, kiss me one last time
If the world's gone to hell
Baby, we'll go to heaven tonight

Take me higher, higher
Take me higher, higher
Take me higher, higher

The world's gone to hell
Feels like everyone's losing their minds
But I don't care
'Cause as long as I'm holding you tight
Well, I'm alright
Baby, kiss me one last time
If the world's gone to hell
Baby, we'll go to heaven tonight

Baby, we'll go to heaven tonight
