

Last Night

Virginia To Vegas

Couple Mai Tais in the morning
That body's made for exploring
Let things get messy
Keep swimming round them bed sheets
I just want you, baby
Them blue eyes driving me crazy
Morning and tonight
All just for that light

I like the way you do things
Bad attitude and mood swings

Last night, not like no other
What's to discover under the covers?
Last night turned into morning, now turned to emotions
Your body's in motion

Last night
Last night
Last night
Last night

What a vibe, what a dream
To have you next to me
Gonna ride this wave all night
I'll just hold on tight

I like the way you do things
Bad attitude and mood swings

Last night, not like no other
What's to discover under the covers?
Last night turned into morning, now turned to emotions
Your body's in motion

Last night
Last night
Last night
Last night

Last night, not like no other
What's to discover under the covers?
Last night turned into morning, now turned to emotions
Your body's in motion

Last night
Last night
