

Make It Last

Virginia To Vegas

I remember feeling hurt
As if I had no worth and no belief
My heart was stuck in shackles
Chained inside my castle, you're the key

I redid my whole life
For this moment in time
You fell from the sky

I walk through the fire
And I'm moving mountains
Cause you make me stronger, stronger
I'm lost in this moment
I wish we were frozen
Can we make it last a little longer?
Can we make it last a little
Can we make it
Can we make it last a little longer?

I remember drowning out
Sorrow kept me down
I was on my knees
I would keep the hurt inside
Cause fear can make you hide from what you need

I redid my whole life
For this moment in time
You fell from the sky

I walk through the fire
And I'm moving mountains
Cause you make me stronger, stronger
I'm lost in this moment
I wish we were frozen
Can we make it last a little longer?
Can we make it last a little
Can we make it
Can we make it last a little longer?

I redid my whole life
For this moment in time
You fell from the sky

I walk through the fire
And I'm moving mountains
Cause you make me stronger, stronger
I'm lost in this moment
I wish we were frozen
Can we make it last a little longer?
Can we make it last a little
Can we make it
Can we make it last a little longer?
Can we make it last a little
Can we make it
Can we make it last a little longer?
