

Perfume

Virginia To Vegas

You walk in
It's bittersweet
What we have
It's chemistry
Say my name
And I'll hold you tight
Dancing along to closing time

And I
Just wanna be around you
Yeah I
Just want you to

Wear me like your favorite perfume
I just wanna be around you
Every breath you'll feel me close
Like a secret only you could know
I'm a thought you can't forget
A part of you close to your chest
Wear me like your favorite perfume

(I just wanna be around you)

140 with the top down
Running every cop in town
Pushing this horse as fast as it will go
Crashing through your door now
Your body placed on mine wow
I'm losing control but I want you so I'm

Breathing you in, it's spinning my head
You're heaven-sent, that's my testament
Now I'm on my knees just praying to you

Wear me like your favorite perfume
I just wanna be around you
Every breath you'll feel me close
Like a secret only you could know
I'm a thought you can't forget
A part of you close to your chest
Wear me like your favorite perfume

(I just wanna be around you)

Wear me like your favorite perfume
(I just wanna be around you)
Wear me like your favorite perfume

Wear me like your favorite perfume
I just wanna be around you
Wear me like your favorite perfume
