

## sunny days

Virginia To Vegas

Oh, everybody knows  
February's meant for getting high and staying home  
And when the sky turns dark again  
It always feels like midnight but it's only 4PM

Long time since I've seen my best friends  
Fun times out there in the west end

Sunny days in the cold  
Sunny days, sunny days in the cold  
Sometimes all that it takes  
Is one little taste  
Watch the snow melt away  
As the winter changes lanes  
Sunny days, I don't feel so alone  
Sunny days, sunny days in the cold

Oh, every now and then  
City girls in summer clothes are coming out again  
I want to soak it up before it's gone  
And find someone to hold until the next one comes along

So long since I've seen my best friends  
Fun times out there in the west end

Sunny days in the cold  
Sunny days, sunny days in the cold  
Sometimes all that it takes  
Is one little taste  
Watch the snow melt away  
As the winter changes lanes  
Sunny days, I don't feel so alone  
Sunny days, sunny days in the cold

Sunny days in the cold  
Sunny days, sunny days in the cold  
Sometimes all that it takes  
Is one little taste  
Watch the snow melt away  
As the winter changes lanes  
Sunny days, I don't feel so alone  
Sunny days, sunny days in the cold
