

# Paradise

Virtuocity

On the edge of this broken world  
Lonely hearts seek love  
There's a time for innocence  
A time for tears  
A time to crush, a time to heal  
A time see through the dream  
A time to love without fear  
You and me in a paradise

You and me in a paradise  
There's a time for everything  
A time to leave and a time to come  
Until we meet again  
From the sunrise to the moonlight  
Only memories remain
