

Never

Visage

Never stop breathing, never stop fighting or dreaming
Live out your wonderful life
Never stop driving, to go all the way you feel
You're behind the wheel of your life

They say, it's a wonderful life
They say, you never live twice
Determination will get you through
And dreams become a part of it too
And that's life for me and you

Don't stop, still believe
Don't stop, still believe
Don't stop, still believe
Don't stop, still believe
