Gravitate Towards Fatality

Visions of Atlantis

The long lost link
Once drowned in the sea
Sentenced forever in darkness to be

Searching since I can think
Fiction for the most
Passion for me
No doubt what I have found

Forget your obsession
It is not worth a thought
Look at your life and the sorrow it brought

A dreamer and a fool, that's what you are calling me
Unreal like a ghost and damned to lethargy

Come closer stranger
Don't be scared
Come closer stranger
There is nothing to care

I will make your dream come true

And now I gravitate towards fatality
Don't hesitate I will come for you
Something great is inviting me and it forces me to come down
There is no light above you anymore
Your only salvation lies deep in the core of your soul

Everything is here for you

And now I gravitate towards fatality
It's never too late for a wish come true

It's the end of my dream and the core of my living
A pure sense of love
And the goal for my longing it's everything but it's also my end

Come closer stranger
Don't be scared
Come closer stranger
There is nothing to care

No chance to return
Water is surrounding me
I can feel the pressure
Part of a secret
Part of the sea

Now you see the price
See what it takes

I will make your dream come true

And now I gravitate towards fatality
Don't hesitate I will come for you
Something great is inviting me and it forces me to come down

There is no light above you anymore
Your only salvation lies deep in the core of your soul

Everything is here for you

And now I gravitate towards fatality
It's never too late for a wish come true
All the lights are shining

Just for me and force me to go
