Send Me a Light

Visions of Atlantis

Send Me A Light
Loneliness's my friend
My self - built land
Until the end
Rain clouds, darkness, coldness - I'm satisfied
Hate and anger, fear is my guiding light
Hope for your sign, send me a light - rescue my soul, set me free
On my way to the unknown
Send me a light
You've got to show me the way
Hearing my plea
Don't leave me alone
Into the unknown
Send me a light
Show me the way don't leave me astray
Send me a light
Out of my night
Take my hate away
Let pain astray
Show me this way
Night falls, dark dreams, blackness comes over me
Endless sorrow, this is what I can see
See me bleeding, don't go away - leave me alone, in my night
On my way to the unknown
Send me a light
You've got to show me the way
Hearing my plea
Don't leave me alone
Into the unknown
Send me a light
Show me the way don't leave me astray
Send me a light
Out of my night
Curse the darkness, for I can free my soul
Freedom calls me, I won't be left alone
Dreaming your dreams, could be reality
You are my dream, see what I've seen and come with me, into light
On my way to the unknown
Send me a light
You've got to show me the way
Hearing my plea
Don't leave me alone
Into the unknown
Send me a light
Show me the way don't leave me astray
Send me a light
Out of my night
