

Alone, is this how it goes?
You're reachin' out, but your fingertips come close
Tonight I'm terrified
But I won't apologize for chasin' paradise

Because it's you
That pulls me into reality
Just come alive and then we die easy
Just come alive and tell me ya need me, yeah
Is this happiness? Maybe
Just come alive and say what I can't say
Just come alive and tell me it's gonna be okay
I'll need somebody and, baby, you know that I'll fade away

Funny how it goes
In this thing called Rock n' Roll
You've seen a thousand faces
But never felt more alone
So just let it ride
Try to see the light
'Cause holding on's a lot like letting go

Because it's you
That pulls me into reality
Just come alive and then we die easy
Just come alive and tell me ya need me, yeah
Is this happiness? Maybe
Just come alive and say what I can't say
Just come alive and tell me it's gonna be okay
I'll need somebody and, baby, you know that I'll fade away

You
That pulls me into reality
Just come alive and then we die easy
Just come alive and tell me ya need me, yeah
Is this happiness? Maybe
Just come alive and say what I can't say
Just come alive and tell me it's gonna be okay
I'll need somebody and, baby, you know that I'll fade away
