How do I keep saying what I mean?
Got me losing sleep when it don't come easily
But it's okay, in the back of my mind
Ideas for me to find when I've tried all I can try
Ten more reasons why, I'm uninspired
Can't fake a surprise, God loves a trier
Give me something never one for running
When the words get stuck in my mouth
(Start again)
Melody calling but I feel like I'm falling
'Cause I can't quite figure it out

We go again, is every line a test?
My mind won't let me rest
Till I've guessed and second guessed
Out of the blue salvation comes along
In my inner monologue when I'm writing all my wrongs

Ten more reasons why, I'm uninspired
Can't fake a surprise, God loves a trier
Give me something never one for running
When the words get stuck in my mouth
