

What Were You Hoping To Find?

Vistas

You know I wanna take you dancing
You know I wanna look in your eyes
We're passively misunderstanding, whoa
To maintain the element of surprise

Your guess is as good as mine
And maybe someday you finally will see
That we share a state of mind
Least we can laugh at the irony
And see a blessing in disguise
Which I don't think you entirely believe
So if you can tell me why
Then we can stop the anxieties babe
What were you hoping to find?

You said you wanna live in Paris
But that's an idea that you found online
And it's so clear that it's transparent, whoa
That it's a knot that I can not untie

Your guess is as good as mine
And maybe someday you finally will see
That we share a state of mind
Least we can laugh at the irony
And see a blessing in disguise
Which I don't think you entirely believe
So if you can tell me why
Then we can stop the anxieties babe
What were you hoping to find?

Your guess is as good as mine
And maybe someday you finally will see
That we share a state of mind
Least we can laugh at the irony
And see a blessing in disguise
Which I don't think you entirely believe
So if you can tell me why
Then we can stop the anxieties babe
What were you hoping to find?
