

You And Me

Vistas

When I met you and I saw your smile
I'll admit I felt like neon lights
In the morning with you by my side
Eye to eye with fingers intertwined

Inside out and upside down
Left and right you turn me round
Inside out and upside down
Left and right you turn

Maybe it's you and me
Maybe you're all I need
Maybe it's you and me
You and me always

Now I feel a little more alive
I'll admit I need those dizzy highs
To relive that night a-thousand times
Bite my tongue and wait for your reply

Inside out and upside down
Left and right you turn me round
Inside out and upside down
Left and right you turn

Maybe it's you and me
Maybe you're all I need
Maybe it's you and me
You and me always

Maybe it's you and me
Maybe you're all I need
Maybe it's you and me
You and me always
You and me always
You and me always
You and me always

Maybe it's you and me
Maybe you're all I need
Maybe it's you and me
You and me always

Maybe it's you and me
Maybe you're all I need
Maybe it's you and me
Maybe you're all I need
