

# Where's The Party

Vitamin C

Where's the party (party, party)  
Where's the party (party, party)  
Show me the way, show me the way

It's like a holiday  
That happens everyday  
I get to celebrate  
No matter what you say  
When I get real bored  
I want something more  
I never lose my head  
Cause I know the score

Show me the way  
Show me the way  
C'mon, show me the way

Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Show me the way, show me the way

One thing I know  
Is when I feel low  
I never have to worry  
Got a place to party  
no one's getting mean  
It's so obscene  
No matter what goes down  
I just get what I need

Show me the way  
Show me the way  
C'mon, show me the way

Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Show me the way, show me the way

Where's the party, where's the party  
party, party, party, party, party, party, party, party  
p-p-p-party

Show me the way  
Show me the way  
C'mon, show me the way

Where's the party?

All I Wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Show me the way, show me the way

Show me the way, if you show me the way  
C'mon show me the way

Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I Wanna do is have some fun  
Where's the party?  
Show me the way, show me the way

Where's the party, where's the party  
Where's the party, where's the party

Show me the way  
Show me the way
