

# Work

Vivian Green

Listen y'all, listen

Can nobody do what you do to my body?  
Make me wanna tell somebody  
But if I do, they'll try and rob me, hehe

Make me so lazy I don't wanna get out of bed  
I lose track of time, like all the time  
And time and time again

Now I am lookin' at the clock  
And I didn't even hear the alarm  
I'll handle all this shit tomorrow  
I'ma be here all day long

So, you better put in that work, baby  
Make me never wanna get out of bed  
Make me never wanna get out of bed  
So, you better put in that work, ooh, ooh, baby  
Make me never wanna get out of bed  
Make me never wanna get out of bed  
So, you better put in that work

Why, you got me feelin' so weak and wobbly, yeah  
They say they never see me, no  
Since you been around, huh, huh

But I tell 'em, "Ain't nothin' wrong with what we're doing"  
I just love to love you all day long  
Now keep it movin', just hide your movin'  
'Cause the way you're movin', it got me, oh

Now I am lookin' at the clock  
And I didn't even hear the alarm  
I'll handle all this shit tomorrow  
I'ma be here all day long

So, you better put in that work, baby  
Make me never wanna get out of bed  
Make me never wanna get out of bed  
So, you better put in that work, ooh, ooh, baby  
Make you never wanna get out of bed  
Make me never wanna get out of bed  
So, you better put in that work

Not like the 9 to 5  
But I'm round the clock more than overtime  
I want your undivided attention 'til I'm tired, weary  
Still got lots of affinity in me

So you better put in that work  
Put in that work  
That work  
Work  
Work

So you better put in that work (Baby)

Make me never wanna get out of bed  
Make me never wanna get out of bed (Make me never)  
So you better put in that work (Ooh, ooh, baby)  
Make you never wanna get out of bed (Make me never)  
Make you never wanna get out of bed (Wanna get out of bed)  
So you better put in that work (Ooh, ooh, baby)  
Make me never wanna get out of bed (Baby)  
Make me never wanna get out of bed (Ooh)

So you better put in that work (Baby, baby)  
Make me never wanna get out of bed (Make me never)  
Make me never wanna get out of bed (Never wanna get out of bed)  
So you better put in that work, mm  
Make me never wanna get out of bed  
Make me never wanna get out of bed (Me never wanna get out of bed)  
Make me never wanna get out of bed  
Make me never wanna get out of bed  
(Make me never wanna get out of bed)  
(Make me never wanna get out of bed)
