

# Machine

Vixen

Suckin' up, suckin' up to hypocrites  
Sums up my days  
Movin' up, backin' up  
I'm like a monkey in a maze  
I think a lot but then I don't remember anything  
Nobody hears  
And I don't even know how I got here  
Here in this gray abys  
Does anybody really have a chance

I am just a volunteer  
I am not an entity  
And it amazes me to tears  
Alone in your machine  
I'm not some faceless pawn  
That you can tread upon  
No more tears, alone in your machine

Cleanin' up, pickin' up your messes  
Is how I survive  
You pull the lever to get me started  
You keep me running till I don't remember anything  
'Cause I am expandable  
I'm sick of livin' like today's tomorrow  
And I wanna step outside  
Right into never never land

I am just a volunteer  
I am not an entity  
And it amazes me to tears  
Alone in your machine  
I'm not some faceless pawn  
That you can tread upon  
No more tears, alone in your machine
