Whisper
Yeah □□□□ □□□□ real love

Tell me your love
To the point where I melt
Tickle my heart
Show me your love
Yeah we're burnin' up baby
Whisper yourself into my heart

Especially more today
Time seems to freeze when I see you
I can't handle you, it transcends narcissism
My instincts have already gone up
I try to calm down my excited heart but it breaks down
Calm down down down
My body is slowing down right now now
No limit limit, what is your limit?
Tell me ahead of time
Everything has levels
But you've erased that process

You are my song, ye baby
I'm different from the other wolves
Who only look for you at night
I look for you every moment of every day girl

You can have all of me, it's alright
(Do) you know what I want
Carefully, right now

Softly, whisper to me girl
Whisper to me
It's quiet but it feels dangerous
You have me specifically flexin'
It's a secret sign
Our own party without anyone knowing
Whisper language

I can use both arms and legs but I can't fully express
I don't care about a party filled with losers
My focus is on you
Chillin' chillin' we need a secret
This is something that happens on a screen
I'm feelin' like a Gosling
I'm sure of this feeling
Love you love you love you love you love you
Really love you
I can't figure you out
But my head is already there
I hope at least half of my predictions
Will be the answer, I hope this night connects us
We can be quiet

Cause I think this is strangely more fun

You can have all of me, it's alright
(Do) you know what I want
Carefully, right now

Softly, whisper to me girl
Whisper to me
It's quiet but it feels dangerous
You have me specifically flexin'
It's a secret sign
Our own party without anyone knowing
Whisper language

Whisper
Yeah tell me tell me your love
Whisper
Yeah I can even hear your breath, love
Whisper
Yeah tell me tell me your love
Whisper
Yeah I can even touch your voice, real love

Don't hesitate anymore, feel your vibe
However you feel, movin'
Falling into black hole my black hole
You don't care about the meaning of beauty
But you just show yourself to me
I've already gone crazy but you drive me crazy again
You make me fly till the end

Once again, whisper to me girl
Whisper to me
Burn me up, like you're testing me
You analyze me like you're flexin'
It's a secret sign
Our own party without anyone knowing
Whisper language

Whisper
Yeah tell me tell me your love
Whisper
Yeah I can even hear your breath, love
Whisper
Yeah tell me tell me your love
Whisper
Yeah I can even touch your voice, real love
