You with your devilish smile.
Its haunting and cruel.
Are you working tonight?
Are you working tonight?

You... you walk into my life daunting and shrewd with a figure
to die by.

Higher and higher is your love my love?
Watching you move is all I dream of.

I said you with your devilish eyes.
You've left much too soon.
Will you work me tonight?

I said you... You walk into my life daunting and shrewd with a
figure to die by.

Higher and higher is your love my love?
Watching you move is all I dream of.
Higher and higher is your love my love?
Watching you move is all I dream of.

Higher and higher is your love my love?
I'm watching you moving and turning...
Higher and higher is your love my love?
Watching you move is all I dream of.

I said higher and higher is your love my love?
Watching you move is all I dream of.
