

# Floating

Vök

Lights are changing  
Feel the calm before  
While they lie still here

Feel the silence  
Feel the calm  
I'm trying to feel the world

We're floating  
Alone  
Together we are still  
We're floating  
Alone  
Together we are still

All the strangers, they come together  
And they want to fight  
They don't accept that we won't live  
Forever

We're floating  
Alone  
Together we are still  
We're floating  
Alone  
Together we are still

Yeah  
I know it, I know it  
I know it's better  
I know it, I know it  
I know it's better  
I know it's better this way
