

Headlights

Vök

Drive me crazy
I'm caught in your headlights
My heart is doing eighty
I think you make me high

Let me put on cruise control
You know I'm on a roll
I can't help it
If I wanna fly

Stop me before I hit the wall
Would you catch me if I fall?
Try so hard to hide my flaws'
Cause I'm afraid I'll go too far

Nighttime baby
And still you shine on me
Feel so hazy
It's just how I wanna be

I don't know the protocol
If I began to stall
I'll get you safely
To where you wanna be

I'm semi-automatic
I don't know how to drive this
Just give me the green light
And I might take flight

And I might take flight
And I might take flight
And I might take flight

Stop me before I hit the wall
Would you catch me if I fall?
Try so hard to hide my flaws
'Cause I'm afraid I'll go too far

Stop me before I hit the wall
Would you catch me if I fall?
Try so hard to hide my flaws
'Cause I'm afraid I'll go too far

Would you catch me if I fall?
'Cause I'm afraid I'll go too far
