

I saw you there, I saw you there
No words said, no words spoken
I was thinking about you, thinking about you
I'm crazy unafraid

Time fades away, time fades away
But then it came, there she came
Into my arms
No turning back from now on

Every time when I'm with you
The stars become a little brighter
Everywhere we go
Ooh
Let's get lost forever
We are beautiful
Everything's illuminated
Ooh

No fade to gray, no fade to gray
Oh, hold my hand, baby, take my hand
Be mine forever, be my one and only
I'm crazy unafraid
I'm crazy for the pain

Every time when I'm with you
The stars become a little brighter
Everywhere we go
Ooh
Let's get lost forever
We are beautiful
Everything's illuminated
Ooh

Something's raging in my heart
'Cause all I really want is you
Our love, it spills, it overflows
'Cause all I really want is you

Every time when I'm with you
The stars become a little brighter
Everywhere we go
Ooh
Let's get lost forever
We are beautiful
Everything's illuminated
Ooh

I saw you there, I saw you there
You had me there, you had me there
I saw you there, I saw you there
You had me there, you had me there
