

Lose Control

Vök

Once again
A girl
Two sensual minds
Take my hand
Blindfolded
Let down your guard

Let me in
I'll make you feel good
I touch your skin
Like a fancy rosewood
Where do you wanna go with this?

I hold you tight
Please spend the night
Easy ride
With some candlelight
Where do you wanna go from now?

Just lose control
She makes me feel the flame
Just lose control
She makes me feel the flame, feel the flame
She makes feel
She makes me feel the flame

Once again
Alone
Now this our time
I take your hand
I'm helpless
Lost in your charm

Let me in
I'll make you feel good
I touch your skin
Like a fancy rosewood
Where do you wanna go from now?

Just lose control
She makes me feel the flame
Just lose control
She makes me feel the flame, feel the flame

She makes me feel the flame

Once again
A girl
Two sensual minds
Once again
Alone
Now this our time

Just lose control
She makes me feel the flame
Just lose control
She makes me feel the flame, feel the flame

Once again
Alone
Now this our time
She makes me feel the flame
Once again
She makes me feel
Once again
She makes me feel
Once again
She makes me feel
Now this is our time
