

# Running Wild

Vök

A shooting star  
That's heading down  
Walking out the door  
There's fever in this town

A sad cowboy  
A young dreamer  
Now let the journey begin

I see blossom in your eyes  
Don't ever let it go  
A guiding light within your heart  
Don't ever let it go

La la la la la la la  
We should be running wild  
Be running wild  
La la la la la la la  
We should be running wild  
Runaway child

No cross to bear  
Does what she wants  
Not following the herd  
True to what she does

But all these voices  
Noises and demons  
Let them all disappear

I see blossom in your eyes  
Don't ever let it go  
A guiding light within your heart  
Don't ever let it go

La la la la la la la  
We should be running wild  
Be running wild  
La la la la la la la  
We should be running wild  
Runaway child

(Runaway child  
Runaway  
Runaway child  
Runaway)

I see blossom in your eyes  
Don't ever let it go  
A guiding light within your heart  
Don't ever let it go  
Ever let it go
