Vök

I prefer the lights out  
Even though  
It's just for you  
I know now  
There's nothing  
I can hide from you  
But I'll do it for you

It's so wrong together  
It's so wrong for loving  
It's so wrong together  
It's so wrong

In my dreams, for so long  
I can barely contain  
This flash of lightning  
I know now  
I was blinded  
It'd better be gone  
Than already over

It's so wrong together  
It's so wrong for loving  
It's so wrong together  
It's so wrong

It's so wrong together  
It's so wrong for loving  
It's so wrong together  
It's so wrong!
