

Closer

Vlad Holiday

It's hard for me to fathom
To understand
Hard to wrap my head around you
But here I am
You're my weakness, darling
That I don't deserve
Thought I'd seen all there was
But you showed me a whole other world
A whole other world

Every moment in my life
Has pulled me closer to you
Diamonds in your eyes
They pull me closer to you
The demons in my head
All my pain, I don't regret
'Cause everything I've done
Has pulled me closer to you

I wonder what would happen
If I took a different turn
If I never knew your beauty
I don't wanna know
Was this all by chance
Or were we meant to be
Together, forever
For worse or for better

Every moment in my life
Has pulled me closer to you
Diamonds in your eyes
They pull me closer to you
The demons in my head
All my pain, I don't regret
'Cause everything I've done
Has pulled me closer to you

Is this all that life is
Bottles filled with lighting
Drinking from both cups, yeah
And you're all invited
To this game we're all in
I'm now just realizing
No use in trying to hide it
Ah ah ah ah

Every moment in my life
Has pulled me closer to you
Diamonds in your eyes
They pull me closer to you
The demons in my head
All my pain, I don't regret
'Cause everything I've done
Has pulled me closer to you
Closer to you
Closer closer closer
Closer closer closer to you

Closer closer closer to you
Closer closer closer
Ah ah ah ah
