

## Two Steps Back

Vlad Holiday

One step forward  
And two steps back  
Guess I'm dancing with my sorrow again  
You're in my bed  
But she's in my head  
One step forward  
And two steps back

She gets the best of me  
You get the worst of me  
She's now a part of me  
The broken part of me  
Don't cut your hands on me  
Don't get scarred from me  
Move on  
Move on

One step forward  
It's just us in this room  
It's an hour past noon  
And time passes us by  
Like ships in the night  
There's nowhere but here  
There's nothing to fear  
But as soon as I'm in the clear  
There she is again  
She wants to dance again  
She takes my hand again  
Pulls me away again  
She breaks my heart again  
And she breaks yours too  
Two steps back
