

Use Me Like You Used To

Vlad Holiday

Verse me in the language you speak
And then throw me to the side
Tell me I'm the one that you see
And then hide me out of sight

You
I need you more than
I know how to prove you I do
I need you like you used to need me
So go on and use me like you used to
You used to

Make it my reality
Burn me in your fire
Tell me that you love me then leave
It's all that I desire

You
I need you more than
I know how to prove you I do
I need you like you used to need me
So go on and use me
Like you used to

Yeah you
I need you more than
I know how to prove you I do
I need you like you used to need me
So go on and use me like you used to
You used to

Use me like you used to
