

HELL HELL HELL

Void Of Vision

Six foot deep in dopamine
Where you got what you want but not what you need
If the devil don't get no sympathy
Get up off your knees and watch me

Bleed
Seems like a job for me
It's like all you ever wanted was to watch me
Bleed
I'm born and raised in gasoline
To blow up a scene, so watch me

I wanna see myself for once through you
Just for a change of view
How can I get myself off like you do?
You wanna feel it slowly start to slip away?
When you can feel the poison coursing through your veins

Six foot deep in dopamine
Where you got what you want but not what you need
If the devil don't get no sympathy
Get up off your knees and watch me

Bleed
Seems like a job for me
It's like all you ever wanted was to watch me
Bleed
I'm born and raised in gasoline
To blow up a scene, so watch me

Erase the rat or I'll erase you
The sharpest minds speak a razor-blade truth
I cut my teeth on jaded scenes
This pound of flesh just tastes so bittersweet

Erase the rat or I'll erase you
The sharpest minds speak a razor-blade truth
I cut my teeth on jaded scenes
This pound of flesh just tastes so bittersweet

Erase the rat or I'll erase you
The sharpest minds speak a razor-blade truth
I cut my teeth on jaded scenes
This pound of flesh just tastes so bitter

Seems like a job for me
It's like all you ever wanted was to watch me

Bleed
Seems like a job for me
It's like all you ever wanted was to watch me
Bleed
I'm born and raised in gasoline
To blow up a scene, so watch me
