

Slave to the Name

Void Of Vision

Blame it on infernal lust
I sold my soul, I sold my soul
I'm staring at the sun
Just hold me close, just hold me close

Let me go

Look at this tangle of thorns
From the dirt, I am reborn
Can't you see the forest for the trees?
Can't you see there's nothing left of me?
(Left to see)

Push me away and then pull me under again
Don't waste your breath
Push me away and then pull me under
Again and again and it never ends

If I'm no better than this, just a disposable fix, then ignorance is bliss
You're just a vulture with your wings clipped
I died for what I believe, pick at me piece by piece

So over losing sleep
So sick of the sound of my own heartbeat

Push me away and then pull me under again
Don't waste your breath
Push me away and then pull me under
Again and again and it never ends

Push me away then pull me under again
It never ends

If I'm no better than this, just a disposable fix, then ignorance is bliss
You're just a vulture with your wings clipped
I died for what I believe, pick at me piece by piece
