

## Better Off

VOILÀ

We'd be  
Better off  
If we were  
Turning down the lights and turning the locks  
And girl you're looking good in your St. Laurent  
But I just gotta tell you  
It'd be better off

Got a table at your favorite place  
You're getting ready running way late  
Rushing up and down the staircase  
Asking me "What should I wear babe?"

Something backless strapless  
Red stilettos with the lips to match it  
And a look that makes me wanna ask if

We'd be  
Better off  
If we were  
Turning down the lights and turning the locks  
And girl you're lookin good in your St. Laurent  
But I just gotta tell you  
It'd be better off  
If it was lying on the floor right where it belongs  
And girl you know your dress really turns me on  
But I just gotta tell you  
It'd be better off

Girl you wanna see a magic trick?  
Took you an hour to pick an outfit  
Another hour just to get in it  
But I can take it off in an instant

So tell me girl how about  
We don't even leave the house  
But we can still go to town

'Cause we'd be  
Better off  
If we were  
Turning down the lights and turning the locks  
And girl you're lookin good in you St. Laurent  
But I just gotta tell you  
It'd be better off  
If it was Lyin' on the floor right where it belongs  
And girl you know your dress really turns me on  
But I just gotta tell you  
It'd be better off

So when you ask to pick a dress I like  
Just know I never will make up my mind  
But that body I can get behind  
Or maybe under if that's what you like
