

Dotted Line

VOILÀ

Patiently waiting
Oh, I think I'm fading
Is anybody out there to talk to?

Somebody save me
Oh, I'm going crazy
And every little thing is about her

Does she love me or does she love me not?
Every daisy pulled apart
Does she love me or does she love me not?
I sold my soul for the part

Here we go one more time (for the people in the back)
One more crack for the night (so let's try to make it last)
Here is my heart now decide to cut it aside on a dotted line

Here we go one more time (for the people in the back)
One more crack for the night (so let's try to make it last)
Here is my heart now decide to cut it aside on a dotted line

I'm slowly breakin'
And, oh, my body's shakin'
Can someone drive a hearse out of the line?

Somebody save me
And, oh, I'm pleadin' baby
But you're out of my league, I'm a mascot

Does she love me or does she love me not?
Every daisy pulled apart
Does she love me or does she love me not?
I sold my soul for the part

Here we go one more time (for the people in the back)
One more crack for the night (so let's try to make it last)

You're my favourite fatal attraction
So kiss me slowly and close the casket
