

Get A Room

VOILÀ

Lately, I've been running red lights
'Cause I don't wanna look to my passenger side
When I stop and see in the car next to mine
You and you know who
So you moved on, and I should probably move away
Because I can't run the risk of seeing your face
With that smile I gave you, and you gave away
To you know who

It's Kacee's party, so I sorta thought it'd be safe
'Cause you hated him when we were dating
It totally kills me to see you with him
Or at least I wish it would

God, could you just get a room!?
I'm so sick of seeing you two
Oh, oh
Touching and kissing like I don't exist
When I do
God, could you just get a room!?

The nerve to show up at the same church
Where I prayed for you, and you show up with her
You look happy, that's nice, hope that it works
With you know who
Wait no, I lied, you're messing with my head
The fact we had a past life you easily forget
I hate that you turn and wave hi with one hand
While the other's in hers

Small towns get smaller the bigger the breakup
And I'm sick of wearing this waterproof makeup
It totally kills me to see you with her
Or at least I wish it would

God, could you just get a room!?
I'm so sick of seeing you two
Oh, oh
Touching and kissing like I don't exist
When I do
God, could you just get a room!?
I'm so sick of seeing you two
Oh, oh
Touching and kissing like I don't exist
When I do
God, could you just get a room!?

God, could you just get a room
Oh, oh
Night!

And if I can't be the love of your life, I'll be the loss of your life instead
And if I can't be the love of your life, I'll be the loss of your life instead
And if I can't be the love of your life, I'll be the loss of your life instead

And if I can't be the love of your life, I'll be the loss of your life instead

God, could you just get a room!?

I'm so sick of seeing you two

Oh, oh

Touching and kissing like I'm not still in love with you
