

Julie

VOILÀ

I can't sleep
Goddamn wolf eating my sheep
I hardly eat
Feels like I'm stuck in concrete, uh

What a waste of time is to be alive
Looking at the world with bloodshot eyes
Can't sleep
Goddamn wolf eating my sheep, yuh

Na na, na na na
Julie can you run it on over
Na na, na na na
We can smoke a four-leaf clover
I've been hoping honey
I'm gonna get it right here
Na na, na na na
Julie can you run it on over

I can't blink
Without feeling like I'm missing something
I hardly speak
Been biting my tongue 'til it bleeds, yea

The more I lose my mind
The more I seem to find
I'm over being me, myself and I
Can't sleep
Goddamn wolf eating my sheep, yuh

Na na, na na na
Julie can you run it on over
Na na, na na na
We can smoke a four-leaf clover
I've been hoping honey
I'm gonna get it right here
Na na, na na na
Julie can you run it on over

I don't got a plan
I don't give a damn
I'm just a kid who's - in the head
Catch me if you can
Stick it to the man
I'm just a kid who's - in the head

I don't got a plan
I don't give a damn
I'm just a kid who's - in the head
Catch me if you can
Stick it to the man
I'm just a kid who's fucked in the head

Na na, na na na
Julie can you run it on over
Na na, na na na
We can smoke a four-leaf clover

I've been hoping honey
I'm gonna get it right here
Na na, na na na
Julie can you run it on over
