

Moat

VOILÀ

Like a lover six feet under
You hold me like a ghost
Why do you come back
To break a heart that
You already broke, yeah

Stop with all the calling
And sending me notes, darling
I cried a river when I shoulda cried a moat
Stop before you fall in
Just leave me alone, darling
I cried a river when I shoulda cried a moat

My voicemail filled up
Hitting my friends up
You say that you're sorry
I need space to try to hate you
Can't you just let me be

Stop with all the calling
And sending me notes, darling
I cried a river when I shoulda cried a moat
Stop before you fall in
Just leave me alone, darling
I cried a river when I shoulda cried a moat

I can't take this anymore
Oh anymore
I can't take this anymore
Oh anymore

Stop with all the texts
I know that your friends wrote
Darling I can't forgive ya
You just gotta let me go
Stop before you fall in
Just leave me alone, darling
I cried a river when I shoulda cried a moat
