

## Nothing - Stripped

VOILÀ

Dandelions look pretty in the breeze  
But in the end a weed is still a weed  
Like to think that you believed in me  
But now I see the lie in believe

And I would really hate you  
If I could feel anything anymore  
Always wonder why it takes you  
So long to get out the door  
All that time on your makeup  
And all your purses cluttered up  
But you're so two-faced girl must take a lot to cover up  
Now

Let's just be nothing  
'Cause they say it lasts forever  
And you promised me  
That's how long we'd be together  
And how could you think  
Being friends would make it better?  
Let's just be nothing  
'Cause nothing lasts forever

You would make me kiss you on the cheek  
Just in case you'd get lipstick on your teeth  
Tell me girl, how can you hold your man  
When you want the world in the palm of your hand?

And I would really hate you  
If I could feel anything anymore  
Always wonder why it takes you  
So long to get out the door  
All that time on your makeup  
And all your purses cluttered up  
But you're so two-faced girl must take a lot to cover up  
Now

Let's just be nothing  
'Cause they say it lasts forever  
And you promised me  
That's how long we'd be together  
And how could you think  
Being friends would make it better  
Let's just be nothing  
'Cause nothing lasts forever

So let's just be nothing

Let's just be nothing  
'Cause they say it lasts forever  
And you promised me  
That's how long we'd be together  
And how could you think  
Being friends would make it better  
Let's just be nothing  
'Cause nothing lasts forever
