

Pull The Plug

VOILÀ

Half of me is Coldplay songs
And the other half is Aderrall, yeah
Lying in the bathroom stall again

And I just really can't today
And no I'm not ok
I don't want to play that game
I think I wanna run away

Pull the plug, let's get drunk in my bed
Give me love, give me drugs 'til I forget
Pull the plug 'cause I'm stuck in my head
Give me love until something disconnects
Give me love until something disconnects
Give me love until something disconnects

Half of me is tumblr quotes
And the other half is burning strokes, and
I'm tired of never coming close again

And I just really can't today
And no I'm not ok
I don't want to play that game
I think I wanna run away

Pull the plug, let's get drunk in my bed
Give me love, give me drugs 'til I forget
Pull the plug 'cause I'm stuck in my head
Give me love until something disconnects
Give me love until something disconnects
Give me love until something disconnects

Half of me is treading water
The other half could use a shower
Could someone fucking kill the power now?

Pull the plug, let's get drunk in my bed
Give me love, give me drugs 'til I forget
Pull the plug could I fuck you instead?
Give me love until something disconnects
Give me love until something disconnects
Give me love until something disconnects
