

Remember

VOILÀ

If I squint my eyes
At these traffic lights
Just for a moment
It looks like a sunrise
Like the ones we'd find
In the countryside
Sneaking a smoke in
With your hands in mine
I never thought I would be missing
All of your sweet cigarette kisses
Is it just me that reminiscing?

So tell me, just tell me
Do you remember?
Running by the river back in Denver?
Tryna wash the smoke out of our sweaters
I wish I was there with you tonight
So tell me, just tell me
Do you remember?
Going skinny dipping in December?
Caught a cold but I never felt better
I wish I was there with you tonight
So tell me, just tell me
Do you?

If I squint my eyes at cars passing by
Just for a moment
It looks like the night sky
Like when we were back
Lying in the grass
Out in the open
With your hands in mine
I never thought I would be missing
Shooting stars out in the distance
Is it just me that's still wishing?

So tell me, just tell me
Do you remember?
Running by the river back in Denver?
Tryna wash the smoke out of our sweaters
I wish I was there with you tonight
So tell me, just tell me
Do you remember?
Going skinny dipping in December?
Caught a cold but I never felt better
I wish I was there with you tonight
So tell me, just tell me
Do you?

Oh how I miss you
I still remember
I'm tryna wash you out of all my sweaters
My friends say that I should just forget her
I wish I was there with you tonight
So tell me, just tell me
Do you remember?
Going skinny dipping in December?

I miss all that time we had together
I wish I was there with you tonight
So tell me, just tell me
Do you?
