Therapy

VOILÀ

Ring once, ring twice
Guess you're not picking up your phone
Hung out to dry

Ring three, ring four
Arguin' with your dial tone
Call back once more, yeah

We went from everything to nothing (In a night)
And I never saw it coming (Tell me why)
Why you couldn't leave me something
To hold at night

Yeah, you messed me up when you cut me loose
Lost my mind with you
I'ma need some therapy
How did we go from being the perfect two
To strangers in a room?
I'ma need, I'ma need some therapy
Some therapy

Pictures got me
Scrolling through all the memories
It's too heavy

I never got closure
So I keep playing it over and over
I'm always stuck in a mood, oh, I hate that

We went from everything to nothing (In a night)
And I never saw it coming (Tell me why)
Why you couldn't leave me something
To hold at night

Yeah, you messed me up when you cut me loose
Lost my mind with you
I'ma need some therapy
How did we go from being the perfect two
To strangers in a room?
I'ma need, I'ma need some therapy
Some therapy

Ring once, ring twice
Guess you're not picking up your phone

Yeah, you messed me up when you cut me loose
Lost my mind with you
I'ma need some therapy
How did we go from being the perfect two
To strangers in a room?
I'ma need, I'ma need some therapy
Some therapy
Some therapy

Ring once, ring twice
Guess you're not picking up your phone
