

TIC TAC TOE

VOILÀ

One never would stop calling
One left before the morning
Monica is the bad tattoo on my arm
One left me for a doctor
Next one become my stalker
Tiffany, she was sweet till she keyed up my car

I was done with love
But then you showed up

Here we go
Got more exes than a tic tac toe
All I want's someone to call my own
Be my last first kiss
(All those exes)
SOS
Caught up in the butterfly effect
Something led me to the way we met
Make me never miss
All those exes
(All those exes)
(All those exes)

I fell so hard
Against my better judgement
I fell so far
That I didn't know what hit me at all
Some know this song's about them
Some never made the album
God I swore that I'd never ever do this again, again, again
But

Here we go
Got more exes than a tic tac toe
All I want's someone to call my own
Be my last first kiss
(All those exes)
SOS
Caught up in the butterfly effect
Something led me to the way we met
Make me never miss
All those exes
(All those exes)
(All those exes)

Cross my heart and hope to die
I swear I'm done with these goodbyes
Could love be worth another try
Give it all, give it all to me
Cross my heart and hope to die
I'm fucking done with these goodbyes
Could love be worth another try
Give it all, give it all

Here we go
Got more exes than a tic tac toe
All I want's someone to call my own

Be my last first kiss
(All those exes)
SOS
Caught up in the butterfly effect
Something led me to the way we met
Make me never miss
All those exes

Oh no, just be my last first kiss
And just make me never miss
All those exes
