

Voodoo

VOILÀ

I was playing it cool
Then right out of the blue
Got me doin things I never do
Guess your playing old-school
Opening up old old wounds
Got me in your palm, my every move

So
Who knew
Knew that you still would play with dolls?
And who knew
Knew that you'd be so involved?

I'm your voodoo
Tell me what to do
And stick another pin in it
Did you dip it in gas
And throw on a match?
'Cause all I ever do is burn up for you
Whenever I wake up with pain in my stomach
Least I know that you're up late and thinking of us
I'm your voodoo
Tell me what to do
And stick another pin in it
I'm your voodoo

Wondering why I did that?
Blame it on ya witchcraft
Are you in my head? Don't answer that
Stabbing me in my back
Needle in the haystack
Needle in my chest my heart attack

So
Who knew
Knew that you still would play with dolls?
And who knew
Knew that you'd be so involved?

I'm your voodoo
Tell me what to do
Stick another pin in it
Did you dip it in gas
And throw on a match?
'Cause all I ever do is burn up for you
Whenever I wake up with pain in my stomach
Least I know that you're up late and thinking of us
I'm your voodoo
Tell me what to do
And stick another pin in it
I'm your voodoo

I'm your voodoo
I'm your voodoo

I'm your voodoo
Tell me what to do

And stick another pin in it
Did you dip it in gas
And throw on a match?
'Cause all I ever do is burn up for you
Burn up for you
Burn up for you
Whenever I wake up with pain in my stomach
Least I know that you're up late and thinking of us
I'm your voodoo
Tell me what to do
And stick another pin in it
I'm your voodoo

I'm your voodoo
I'm your voodoo
