

# Wish You Hell

VOILÀ

I wish you well  
I mean "hell"  
Getting over me  
Go kiss and tell  
Tell yourself that he's what you need  
I wish you well  
Getting help  
With your missing piece  
I wish you well  
When you're in hell

I hope when he takes her  
Out on some fancy date  
I hope that the waiter  
Ends up having my name

I swear that I ain't mad  
But when he leans in too close  
what are the odds that  
He's wearing my old cologne

I see London  
I see France  
Everyone sees he just wants to get in your pants

I wish you well  
I mean "hell"  
Getting over me  
Go kiss and tell  
Tell yourself that he's what you need  
I wish you well  
Getting help  
With your missing piece  
I wish you well  
When you're in hell  
When you're in hell

I hope when he plays you  
Some indie song he found  
I hope it's something blue  
Or it's figure you out

I see London  
I see France  
Everyone sees he just wants to get in your pants

I wish you well  
I mean "hell"  
Getting over me  
Go kiss and tell  
Tell yourself that he's what you need  
I wish you well  
Getting help  
With your missing piece  
I wish you well  
When you're in hell  
When you're in hell

I wish you well  
When you're in hell

I hope when he plays you  
Some indie song he found  
I hope it's something blue  
Or it's figure you out

Some indie song he found  
I hope it's something blue  
Or it's figure you out
