

I'm turning to ten  
But you never hear me speak  
Your mouth resorts  
To making your nonsense leak  
Towers collapse  
But you have a million spares  
Enjoy the view  
You're building from plastic chairs

I took your mask away  
And you became this  
Underwhelming freak  
That we will not miss  
I took your mask away  
And you became this  
Underwhelming freak  
That we will not miss

Your pain is a meme  
Your proof is a constant bore  
You're spoiling the end  
Of episode one to four  
I'm out of reach  
But you still drag me down  
I'm under siege  
But here I stand my ground

I took your mask away  
And you became this  
(Get away from me)  
Underwhelming freak  
That we will not miss  
(Move away from me now)  
I took your mask away  
And you became this  
(Get away from me)  
Underwhelming freak  
That we will not miss

Hiding the code to your human chart  
Clouding your worn down self-regard  
Feeding this game with old penalties

Closing the lid to your father's heart  
The loss of time when he fell apart  
Feeding this game with old melodies

I took your mask and you became  
Someone I forgot  
Who shares my name
