

Inside Your Fur

VOLA

You weren't here for long
I guess my presence was a failure
The disparity was strong
Between your heart and your behaviour
This summer was a blur
The compilations we returned to
I wanna sleep inside your fur
And dissolve before my curfew

I am a stranger in this space
I will remember and erase you

You weren't here for long
You brought the treasure and the formless
The chorus of a song
Behind a minefield and a fortress
This morning would prefer
To be the sun that we occur to
I wanna sleep inside your fur
And dissolve before my curfew

I am a stranger in this space
I will remember and erase you
