

## Still

VOLA

You're off to set the record straight  
Hurling down the road  
Your mind is heaving heavily  
You will is getting old

Still you bother  
Still you wish to be clear  
Still you bother  
To make it disappear

You're done accepting casualties  
The living should live  
You've seen the executioner  
Permitted to forgive

Still you bother  
Still you wish to be clear  
Still you bother  
To make it disappear

Ending themes  
Find me constantly  
(Look through this red window)  
Stormy day  
Sweep the burst away  
(Steer through this red water)

Still you bother  
Still you wish to be clear  
Still you bother  
To make it disappear
