

## We Are Thin Air

VOLA

Lightning fell from the sky  
You weren't able to step inside  
Lightning dwells in your eyes  
You wanna hear how the blast subsides

I'm a lost installment in your ear  
I'm the final one to interfere  
In a trending picture, we are thin air

Lightning fell from the sky  
We are impossibly grounded by  
All the death you apply  
How are we certain that you survived?

I'm a lost installment in your ear  
I'm the final one to interfere  
In a trending picture, we are thin air

Reel the caller in, cultivate the sound of fur  
I will praise your chin, I will shake if I'm a blur  
Tossed and found, porcelain hound

I'm a lost installment in your ear  
I'm the final one to interfere  
In a trending picture, we are thin air
