

Say No More

Volbeat

The energy and vibration infecting
The question and purpose for my existence
Jump in the fire, what do you tame?
Burning the masses, feeling the pain
The greatest teacher lives in your own skin
Applying the knowledge that you feel within
Jump in the fire, what do you tame?
Burning the masses, feeling the pain

I feel I lived a life before
The memories are spoken from a deadly soul
Say no more

I recreate, accumulate, determinate
The passing of the lonely one
Say no more

Don't be afraid of death while you're in your bed
You're just getting out of it and into the next
Jump in the fire, what do you tame?
Burning the masses, feeling the pain

I feel I lived a life before
The memories are spoken from a deadly soul
Say no more

I recreate, accumulate, determinate
The passing of the lonely one
Say no more

The energy and vibration infecting
The question and purpose for my existence
Jump in the fire, what do you tame?
Burning the masses, feeling the pain

I feel I lived a life before
The memories are spoken from a deadly soul
Say no more

I recreate, accumulate, determinate
The passing of the lonely one
Say no more
