

# Seal the Deal

Volbeat

Sold my soul and singed my name in blood  
Stole it back now praying in the dark  
Fooled the devil  
Begging for a fight  
Count the dollars make your bet tonight

Feel strong like an oiled machine  
All the anger boils within  
Move it  
Give it  
The high rollers are in

I get groovy  
now turn it on and fight  
Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage  
Seal the deal and let's do it all again

Knuckles crushed  
My eyes no longer see  
I paid the price and fed the family

Feel strong like an oiled machine  
All the anger boils within  
Move it  
Give it  
The high rollers are in

I get groovy  
now turn it on and fight  
Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage  
Seal the deal and let's do it all again

Sing hallelujah  
The devil in disguise  
There'll be no more pearly gates  
So stand up for yourself this time  
Fight for honor let no one drag you down no more  
Be your own man with blood sweat tears you fall

I get groovy  
now turn it on and fight  
Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage  
Seal the deal and let's do it all again

I get groovy  
now turn it on and fight  
Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage  
Seal the deal and let's do it all again
