

Step Into Light

Volbeat

Brothers, I'm at the gate
I no longer feel the pain, but I cry
Please let them know at home
Know that I love them so they will cry

Heard on the battlefield last night
Step into light
Step into light
Heard on the battlefield last night
Step into light
Step into light
Step into light

Heroes don't kill for fame
Religion or any names, and they cry
Cowards are made of blood
Drain them for what they got, they will cry

Heard on the battlefield last night
Step into light
Step into light
Heard on the battlefield last night
Step into light
Step into light
Step into light

Heard on the battlefield last night
Step into light
Step into light
Heard on the battlefield last night
Step into light
Step into light
Step into light, ah
